Summary

Builder with 1 year at Feyntech.AI — shipped products across e-commerce, fintech, edtech, automotive, travel, and manufacturing. Comfortable across design, frontend, backend, and AI integration. Most work live and verifiable from public URLs below.

Experience

Desai Opulence Consultant

Sep 2026 – Present

Product Design Consultant (Independent Contractor)

Hybrid

- Product design consultant for an early-stage platform startup (pre-launch), owning UX/UI design end-to-end from concept through implementation-ready specs.

Advize

Aug 2026 – Present

Founder's Office

Remote

- Own outbound lead-generation for Advize, an integrated growth partner for D2C/e-commerce/retail brands: built an account-sourcing pipeline against a custom filter template, verifying real ad spend via Meta Ad Library and social signals; sourced and qualified 1,200+ companies across 7 market segments in month one.
- Own marketing execution: build content calendars for what gets posted, coordinate outbound and content work across the team, and run supporting research; drive positioning for the founder, the Founder's Office, and the company page.

Craveto Foods

Jul 2026 – Present

AI Automation Consultant (Independent Contractor)

Remote

- Building an AI-assisted order-to-invoice automation for a B2B FMCG client: LLM order parsing, a GST-aware billing engine, Tally ERP integration, and a human-approval dashboard, validated against real invoices with 96 passing tests.

Feyntech.AI (formerly Feyntech Educators)

Jun 2025 – May 2026

Product Developer (Promoted from UI/UX Designer Intern, Aug 2025)

Ahmedabad, India

- Clothgenie** [clothgenie.in] — Built AI-powered fashion catalog platform: brands upload 2–3 apparel images → 7 catalog-ready shots (varied poses, 4K quality) via Seedream v4 + Claude Vision, replacing costly photoshoots. Customer storefront (Express + Drizzle + Tailwind + shadcn) plus Python/Flask admin console with PDF export and Google Drive sync.
- PixiBooks** [pixibooks-pixign.fly.dev] — Designed and shipped B2C memory book studio (client product): photo upload → AutoFlowEngine layout generator (8 templates) → mobile customization → PDF export. SHA256 hashing, HEIC fallback, tab-kill recovery, concurrent resize deduping. Next.js 14 + Supabase + Drizzle + react-pdf on Fly.io.
- Feynance** [feynance.fly.dev] — Built internal finance dashboard: Google Apps Script scanning HDFC Gmail every 15 min, auto-parsing and categorizing transactions (vendor payments, payroll, service charges), inline AI chatbot, and payment escalation. Next.js 16 + Supabase + Anthropic SDK; RLS + audit log.
- Additional builds across automotive (**CarSan**: OpenAI Vision OCR + voice transcription), edtech (**IELTS Writing Assistant**: Azure Speech/Vision/TTS multi-modal AI tutor; **YourEduicator** [youredugator.com]: edtech platform), and manufacturing (**Bhawal Metal Industries** [bhawalmetal.com]: corporate site with React Three Fiber 3D).

Ahmedabad University

May 2025

Cybersecurity Course Associate

Ahmedabad, India

- Led 4-week intensive Intro to Cybersecurity & Cryptography course for 30 students: course content delivery, lab sessions, grading, and 1:1 student mentoring.

Selected Projects

MoodMatch [moodmatchh.vercel.app] — Capstone Lead, Chal Kabira (travel startup)

Nov 2025 – Apr 2026

- Led 5-person team building psychographic travel recommendation product with industry mentorship from Chal Kabira founder
- Designed 16-statement psychographic quiz across 8 purpose categories with weighted scoring algorithm; matched users to top 10 of 227 curated experiences
- Stack: React 19 + Express + TypeScript + Postgres + Drizzle; Google Sheets analytics; dual deployment (Replit + Vercel)

Education

Ahmedabad University — B.S. (Hons.) Computer Science

2022 – 2026

Kendriya Vidyalaya No.1 Shahibaug, Ahmedabad — Secondary & Higher Secondary

2022

Skills

Design: Figma, design systems, mobile-first responsive design
